

Computerized Video Instruction

The Technological Advantage

Zama Golf Club is pleased to announce the arrival of a “state-of-the-art” computerized system for video swing analysis. This gives the instructors the ability to capture your swing and analyze it frame-by-frame including graphic overlays. The entire lesson can then be transferred to a VHS video tape for you to take home and review. Video instruction is part of all lessons and is an extremely valuable tool for instructors.

Biography of Mike Sul PGA Professional

I arrived at Camp Zama in August of 2009 to assume

the role of Assistant Professional at Zama Golf Club. I am a 4-year Class "A" Member of the Professional Golfers' Association of America (PGA). I have taught at Victoria Golf Course as Head Professional in Southern California. I have given thousands of private lessons to golfers of all ability levels. I believe golf is a life long game and is not learned in a short-term fashion. I believe anyone can learn to play better golf. Setting and understanding their goals is the first step in developing a better game. Through this relationship players are exposed to a stress-free environment of learning to play better golf. My coaching philosophy is based on educating a player on the process of improving their technique and then learning how to play better.

I can also correct equipment errors by conducting personalized club-fittings with the Ping or Mizuno fitting system.
